References : A comprehensive resource center (Media Center) of references, periodicals, books, texts, audio/visual tapes, and online resources are available to support the course of study and supplement student training. Students should avail themselves of the opportunity to use these extensive materials.

Teaching Methods : The clock-hour education is provided through a sequential set of learning steps that address specific tasks necessary for state board preparation, graduation, and job entry-level skills. Student treatment room equipment, implements, and products are comparable to those used in the industry. Each student will receive instruction that relates to esthetics performance through productive and career- oriented activities. The course is presented through comprehensive lesson plans that reflect effective educational methods. Subjects are presented by means of interactive lecture, demonstration, and student participation. Audiovisual aids, guest speakers, projects, activities, and other related learning methods are incorporated throughout the course of study.

## Federal Student Aid: Guidelines & Policies

Congress	The Department of Education	Schools	Students & Their Families	Students
Responsible for writing the law and allocating funding for the programs	Responsible for approving schools to participate, delivering funds to the schools, writing regulations based on law, and monitoring compliance with laws and regulations.	Responsible for providing quality education and properly administering the federal student aid (FSA) programs.	Primarily responsible for funding the student's postsecondary education.	Responsible for successfully completing their education and repaying their loans.

## FAFSA

Completing the Free Application for Federal Student Aid (FAFSA form) is the first step toward receiving Title IV aid. The information provided by the student (and for dependent students, the parents) assists the U.S. Department of Education in determining a student's eligibility for federal student aid. The information from the FAFSA form is sent to student-selected schools in an electronic format called an Institutional Student Information Record, an ISIR. Students will receive a report called a Student Aid Report, a SAR.

## Federal Return of Title IV Funds Policy

The school participates in federal financial aid. Please refer to the following refund policy for specific consumer information pursuant to the federal financial aid program. Title IV federal financial aid funds are awarded under the assumption that a student will remain in classroom attendance for the entire period for which funds were awarded. If a financial aid recipient withdraws from school after beginning attendance, the amount of Title IV grant or loan assistance earned by the student must be determined. The school is required to calculate the amount of Federal Title IV funds to be returned for a student who has withdrawn from all classes. If a student receives SFA (Student Financial Aid) in the form of loans and/or grants, withdraws from school after beginning attendance, the amount of SFA grant or loan assistance earned by the student must be determined. For students who have received Title IV financial assistance, the Federal Return of Title IV Funds calculation will be completed first and applicable funds returned. Returned funds will be reduced from the payments received on behalf of the student before applying the institutional refund policy to determine whether the student is owed a refund or if a balance is owed to the institution. If a student has received less aid than that student earned, he/she may be eligible for a post-withdrawal disbursement. If a student is eligible for this disbursement, the school will notify the student in writing of the amount for which he/she is eligible. The student will have 14 days to accept or decline the disbursement. If an acceptance is not received within this time frame, the institution will not make the post-withdrawal disbursement to the student. The Federal Return of Title IV Funds formula dictates the amount of federal Title IV aid that must be returned to the federal government when that student withdraws on or before the 60 percent point in time in the payment period. The federal formula requires a return of Title IV aid if the student received federal financial assistance in the form of Stafford Loans, Pell Grants, or PLUS Loans and withdrawals on or before completing 60 percent of the payment period. The percentage of Title IV aid earned is equal to the percentage of the payment period that was completed as of the withdrawal date if this occurs on or before the 60 percent point of time. The percentage that has not been earned is calculated by determining the complement of the percentage earned (e.g., if 40 percent was earned, 60 percent was unearned). The amount to be returned is calculated by subtracting the amount of Title IV assistance earned from the amount of Title IV aid that was or could have been disbursed as of the withdrawal date. The percentage of the payment period scheduled to complete is calculated by dividing the total number of clock hours scheduled to complete by the payment period as of the last date of attendance. If a student unofficially or officially withdraws and has received federal loans, the loans will go into repayment once the grace period expires: a. Unofficial withdrawal applies when a student is absent for 14 or more consecutive calendar days; b. Official withdrawal applies when a student notifies the school in writing or in person. In both cases the last day of attendance will be used in the return to Title IV calculation. School scheduled breaks of five (5) or more consecutive days are excluded from the return to title IV calculation as periods of nonattendance and, therefore, do not affect the calculation of the amount of federal student aid earned. This provides for more equitable treatment of students who officially or unofficially withdraw near either end of the schedule break. Title IV funds will be returned to the United States Department of Education within 45 days. NOTE: A student who withdraws prior to completing 60 percent of the charging period may be required to repay some of the funds released to the student because of a credit balance on the student's account.

Refunds to Title IV programs will be made in the following order:

Federal Unsubsidized Stafford Loan	Federal Subsidized Stafford Loan	Federal PLUS Loan	Federal Pell Grant
---------------------------------------	-------------------------------------	-------------------	--------------------

## **Refund Policy**

Refunds for classes canceled by the institution: If tuition and fees are collected in advance of the start date of a program and the institution cancels the class, the institution refunds 100% of the tuition and fees collected. Refunds for students who withdraw on or before the first day of class: If tuition and fees are collected in advance of the start date of classes and student does not begin classes or withdraws on the first day of classes, the institution retains no more than the \$100 application fee. Appropriate refunds for a student who does not begin classes are made within 45 days of the class start date. Refunds for students enrolled prior to the visit of the institution: Students who have not visited the school facility prior to enrollment have the opportunity to withdraw without penalty within three days following either attendance at a regularly-scheduled orientation or following a tour of the facilities and inspection of the equipment. Refunds for students enrolled in professional development and/or continuing education courses: Students deciding to withdraw or change dates of attendance in any certification and/or continuing education course prior to the start of the class will receive a full refund on all fees paid towards the course. Refunds for withdrawal after class commences: The refund policy for students attending non-public institutions who incur a financial obligation for a period of 12 months or less is as follows: During the first 10% of the period of financial obligation and until the end of the first 25% of the period of obligation, the institution refunds at least 50% of the tuition. After the first 25% of the period of financial obligation and until the end of the first 50% of the period of obligation, the institution refunds at least 25% of the tuition. After the first 50% of the period of financial obligation, the institution may retain all of the tuition.

## **Student Financial Aid Release**

The undersigned agrees that Southeastern Esthetics Institute does not guarantee the student loan process in any respect. A Federal Parent Plus loan requires a credit check and is based on the parent's credit. Pre-approval for a Parent Plus loan does not guarantee that the parent will receive a Federal Parent Plus loan. It is critical that the parent be able to pass a credit check when the loan is certified. The school has no control over the approval or decline of a parent's credit history. Nor does the school assume any responsibility for mistakes on any Department of Education financial aid forms. It is up to the student to make sure all forms are accurate and complete.

Federal loan information is available in the National Student Loan Database System (NSLDS) and will be accessible by Servicers and Schools, as authorized.

## **Policy for Verification of Title IV Funding**

The school has policies and procedures that it follows for verification of Title IV funding. Verification is a requirement by the U.S. Department of Education. Students are randomly selected to provide additional information. The school provides students with a verification form so they can collect the necessary information. The school gives the student a 30-day deadline to return the form to the financial office with verification items attached. If verification documents are not submitted by the due date, the student will be placed on a monthly cash pay status until verification is completed. The corporate office sends to the school a change in EFC form for students

to sign if their EFC changes. SMART handles our student overpayments and alerts the school so it can make changes to the award packet, which is reported to Common Origination and Disbursement (COD) for the Department of Education.

## Eligibility of Financial Aid After a Drug Conviction

Students will be given written notice advising them that a conviction of illegal drugs, of any offense, during an enrollment period for which the student was receiving Title IV financial aid will result in the loss of eligibility for any Title IV per HEA Sec. 484(r)(1) and 20 U.S.C. 1091(r)(1). Students whose eligibility has been suspended due to a drug conviction may resume eligibility if they successfully pass two (2) unannounced drug tests conducted by a drug rehabilitation program that complies with criteria established under HEA Sec. 484(r)(2) (20 U.S.C. 1091(r)(2)).

## Special Provisions for Books & Supplies

In order to academically succeed in a program, a Federal Pell Grant student must have the ability to purchase books and supplies at the beginning of the academic period. By the seventh day of a payment period, the school will provide a way for a student who is eligible for a Federal Pell Grant to obtain or purchase the books and supplies required for the payment period if:

Ten days before the beginning of the payment period, the school could have disbursed FSA funds to the student; and	Disbursement of those funds would have created an FSA credit balance.	The school will consider all FSA funds a student is eligible to receive at the time it makes the determination, but the school need not consider aid from non-FSA sources.	The amount the school must provide is the lesser of the presumed credit balance or the amount determined by the school that the student needs to obtain the books and supplies.
In determining the required amount, the school may use the actual cost of books and supplies,	or the allowance for those materials used in estimating the student's cost of attendance for the period.	A student may decline to participate in the process to obtain or purchase books and supplies, if they so choose.	

## Satisfactory Academic Progress Policy

Students enrolled in programs approved by COE must meet formal standards that measure their satisfactory progress towards graduation. The Satisfactory Academic Progress Policy is provided to all students prior to enrollment. The policy is consistently applied to all applicable students. Evaluations are maintained in the student file. The school will develop an academic and/or attendance plan to address the specific needs of those students who fail to meet the academic and/or attendance requirements at specific SAP evaluation points. A leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence.

## Quantitative & Qualitative Factors

Factors for measuring the student’s progress towards satisfactory completion of the program include maintaining the following requirements:

Students are assigned academic learning units and a minimum number of practical experiences for course completion.	Academic learning is evaluated after each unit of study. Practical skills learning is evaluated as completed and counted toward course completion only when rated as satisfactory or better.	Practical skills are evaluated according to test procedures as set forth in the Practical Skills Competency Criteria.
Students must maintain a written grade average of 80 percent or higher.	A minimum cumulative attendance of 80% of their scheduled hours** **To determine your rate of attendance, divide the cumulative number of hours completed by the scheduled hours to date.	A student who has not achieved the minimum cumulative GPA of 80% and/or who has not successfully completed at least a cumulative rate of attendance of 80% is not eligible for Title IV assistance, if applicable, unless the student is on warning or has prevailed upon appeal of the determination that has resulted in status of probation.

## Warning

Students failing to meet minimum requirements for attendance and/or academic progress will be placed on Financial Aid Warning and considered to be making satisfactory academic progress during the warning period which is until the next evaluation period. The student will be advised in writing on the actions required to attain satisfactory academic progress. During the Financial Aid Warning period, students are eligible, if applicable, to receive financial aid funds. If at the end of the warning period, the student has still not met both academic and/or attendance requirements, he/she may be placed on probation and, if applicable, the student may be deemed ineligible to receive Title IV funds.

## Appeal Procedure

A student may appeal the Financial Aid ineligible decision if he/she has a reason for not making satisfactory progress and if he/she can document that the circumstances that caused the unsatisfactory academic progress determination have in some way changed and that satisfactory academic progress standard can be met by the end of the evaluation period. A student has five (5) calendar days from the date of notification that they are not meeting the satisfactory progress requirements. The student must submit a written appeal to the school’s financial aid office on the designated schools Appeal Form describing why they failed to meet satisfactory academic progress standards, along with supporting documentation of the reasons why the determination should be reversed. This information should include what

has changed about the student's situation that will allow them to achieve satisfactory academic progress. The reasons for which a student may appeal a negative progress determination include death of a relative, an injury or illness of the student, a student's disability, or any other allowable special or mitigating circumstances. The Appeal documents will be reviewed and a decision will be made and reported to the student within 5-7 calendar days. The appeal and decision documents will be retained in the student's file. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable. If the appeal is granted the student will be placed on Financial Aid Probation for one evaluation period. If the student has not met academic and/or attendance requirements after the one evaluation period, and does not prevail on appeal, the student will be determined as not making satisfactory progress and may be terminated. This policy applies to all students regardless of whether or not they are eligible for Title IV funding programs. In order to comply with USDE requirements the terminology financial aid warning or financial aid probation will be used for both Title IV and non-Title IV students.

## **Probation**

**Students who fail to meet the minimum requirements for attendance and academic progress after the warning period will be placed on probation.** If the student appeals the decision and prevails upon the appeal, the student will be considered to be making satisfactory academic progress while during the probationary period.

Additionally, only students who have the ability to meet satisfactory academic progress policy standards by the end of the evaluation period may be placed on probation. Students must be able to meet requirements set forth by the end of the evaluation period. Students who are progressing will be considered making satisfactory academic progress. The student will be advised in writing of the actions required to attain satisfactory academic progress. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress, the student will be determined as NOT making satisfactory academic progress, and if applicable, the student will not be deemed eligible to receive Title IV funds.

## **Termination Appeal Procedure**

If a student is terminated due to receiving the maximum amount of coaching sessions, or due to the reasons outlined under termination on the Student Advisory Form, the student may appeal the termination decision. A student has five (5) calendar days from the date of termination to appeal the decision. The student must submit a written appeal to the school's Financial Aid Officer on the schools Termination Appeal Form describing why they were terminated, along with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to continue through the program without incident. An appeal hearing will take place within 5-7 business days of receipt of the written appeal. This hearing will be attended by the student, parent/guardian (if the student is a dependent minor), Financial Aid Officer, Institutional Advisory Committee (at least one member), and the Chief Administrative Officer. A decision on the student's appeal will be made within three (3) business days by the Chief Administrative Officer and will be communicated to the student in writing. This decision will be final.

## **Re-Establishment of SAP**

Students may re-establish satisfactory academic progress and Title IV funding, as applicable, by meeting the minimum attendance and academic requirements by the end of the warning or probationary period.

## Reinstatement of Financial Aid

If applicable, Title IV financial aid will be reinstated to qualified students who have prevailed upon appeal or who have reestablished satisfactory progress by meeting the minimum cumulative attendance and academic requirements.

## Completion of Course Within Designated Period of Time

Southeastern Esthetics Institute - Esthetics Licensure Course DAYTIME: Full-Time Students attend five (5) days (Monday-Friday), 30 hours per week, from 9:00am-3:00pm. Modified-Time Students are required to attend at least three (3) days, approximately 18 hours per week. Esthetics Licensure Course EVENING: Full-Time Students attend four (4) days (Monday-Thursday), 20 hours per week, from 4:00pm-9:00pm.

The state of South Carolina requires 450 clock hours for the Esthetics Licensure Course, at present. Southeastern Esthetics Institute was granted the authority to conduct its Esthetics Licensure Course at 600 clock hours as of January 2017, to meet a national standard. Students are expected to complete the course in no more than 125% of the program length. If a student is never absent, he/she should complete the course within 20 weeks for a full-time student and within 33.33 weeks for a modified-time student.

## MAXIMUM TIME FRAME

Students must complete the educational program within the maximum time frame, which is based on attending at least 80% of the scheduled hours.

COURSE	LENGTH	MAXIMUM TIME FRAME
ESTHETICS LICENSURE COURSE DAYTIME: FULL-TIME	20 WEEKS	25 WEEKS
ESTHETICS LICENSURE COURSE EVENING: FULL-TIME	30 WEEKS	37.5 WEEKS

## Interruptions, Course Incompletes, and Withdrawals

If the student needs to take off more time than allotted in the contract or more than 14 consecutive calendar days, he/she must take a leave of absence or withdraw and re-enroll when ready to return. If a student needs more than 14 consecutive calendar days of time off

due to pregnancy/new mother, and/or military duty then the student should take a leave of absence. Students who withdraw prior to completing the course of study and who wish to reenter will reenter at the same progress status as applicable at the time of withdrawal.

SEEI withholds the right to charge a withdrawal fee of \$100 for all students withdrawing at any point in time from Southeastern Esthetics Institute.

Students that discontinue attendance and do not come within two weeks to sign required withdrawal paperwork from our programs will automatically be withdrawn at the two week point and use this date as the “end date” of their time at Southeastern Esthetics Institute. This will be documented for the student record.

## **Leave of Absence Policy**

A Leave of Absence (LOA) is a temporary interruption in a student’s program of study. LOA refers to the specific time period during an ongoing program when a student is not in academic attendance. Leaves of Absence will be granted in the case of pregnancy or new mothers. A leave of absence will be permitted with a letter from the student’s doctor. If a student is called into active duty for the military the school will grant a leave of absence. These are the only times leave of absences are granted.

A leave of absence will extend the student’s contract period and maximum time frame by the same number of days taken in the leave of absence. In order to be placed on Leave of Absence, the student must:

- Complete and sign the school’s Leave of Absence Request Form
- Be approved by the School’s Financial Aid Officer
- Must be in Satisfactory Progress.

**Leaves must be a minimum of FOUR DAYS and must not exceed a total of FOURTEEN DAYS in a 20 WEEK CYCLE for Daytime Esthetics students and a 30 WEEK CYCLE for Evening Esthetics students.** Students may not arbitrarily decide to “take” a leave of absence. There will be no additional charges for a LOA. If the student fails to return or contact the School Financial Aid Leader on the documented return date, the Student will be considered to have withdrawn from school as of that date the student began the LOA. The withdrawal date for the purpose of calculating a refund is always the student’s last day of attendance. For federal aid recipients, the student’s payment period is suspended during the LOA and no federal financial aid will be disbursed to student while on a Leave of Absence. Upon the student’s return, the student will resume the same payment period and coursework and will not be eligible for additional Title IV aid until the payment period has been completed. If the student is a Title IV loan recipient, the student will be informed of the effects that the student’s failure to return from a leave may have on the student’s loan repayment terms, including the expiration of the student’s grace period. A contract addendum will be completed upon return from the LOA to extend the contract end date by the applicable number of days. In order to grant a Leave of Absence there must be the expectation that the student will be returning to school. A student who is granted a LOA that meets these criteria is not considered to have withdrawn and no refund calculation is required at that time. Changes to the contract period on the enrollment agreement must be initialed by all parties or an addendum must be signed and dated by all parties to reflect the new contract end date.

## Evaluation Procedures & Required Level of Achievement

Students receive mandatory progress reports at the ten-week mark (halfway point) during the Esthetics Licensure Course. All data collected and reviewed by faculty and student in question are then kept in hard copy format within the official student file. The following grading system is used to evaluate a student's academic ability: Examinations are given in all subjects. Grades and attendance (Satisfactory Academic Progress) records are reviewed and signed by the student and maintained in the student's financial file. The Satisfactory Academic Progress will reflect if the student evaluation will impact the students' eligibility for Financial Aid. The student may request to review their financial aid file from the Financial Officer. The following grading scale is used for theory progress: 93-100 (A); 85-92 (B); 74-84 (C); 0-74 (F). Practical and clinical work is graded by a signature and check mark on each clinical requirement listed on the student's practical clinic worksheet. A signature from an instructor represents a passing grade which means all elements of the practical grading criteria were met. No signature indicates a failing score which means one or more of the practical grading criteria elements were not met and the student has not met minimum satisfactory standards on the practical application. Students are required to continue and/or repeat the practical application until they receive a signature from an instructor. Students must make up failed or missed tests and incomplete assignments.
